

# Change POS, Price Sign, & Pump. Automatically.

**Worried about out-of-sync pricing?**

**Price changes running you ragged?**

Skyline and VeriFone systems working together.  
**Maximize your existing technology.**

**ELIMINATE RISK OF  
OUT-OF-SYNC PRICING**

**INTEGRATE YOUR  
EXISTING DEVICES**

Increase profits, reduce human error and optimize your existing technology by bringing together your Skyline electronic price sign and VeriFone Point of Sale system.

We work the way you work. With Skyline, you choose how you want to work with your VeriFone Point of Sale system.

#### **Price Sign Interface**

- Change prices at your VeriFone POS and Skyline Electronic Price Sign automatically.
- Eliminate the risk of possible out-of-sync pricing.

#### **PriceAdvantage Integration**

- Change prices at your VeriFone POS, the pump, and the sign — automatically.
- Get the right price to the right store at the right time, every time.

**Integrating existing technology has saved our customers time, money and frustration. Now they have peace of mind that their pricing is always in sync and in compliance.**

— John Keller, Sr. Product Manager, Skyline Products

## OPTION 1

### **Skyline and VeriFone Interface**

Change prices at your VeriFone POS and Skyline Price Sign automatically — from the store.

Supports VeriFone POS with Sapphire controller. Contact VeriFone directly for configuration and setup. Supports both scroll and LED Skyline signs.

## OPTION 2

### **PriceAdvantage Integration**

Change prices at your VeriFone POS, the pump and electronic price signs — from headquarters.

Supports VeriFone POS with Sapphire controller. VeriFone stand-alone with RUBY not supported. Supports both scroll and LED Skyline signs, and other electronic signs.

### **Either way...**

- Spend more time with your customers.
- Have happier, more strategic store managers.

**Contact us to find out how you can be more profitable.**
